

OUR MISSION: KEEP YOU ON MISSION

Delivering innovative, robust technology solutions for DoD, civilian, and commercial clients. With expertise in healthcare IT, electronic records, and cybersecurity, we design practical and enduring solutions that enhance government user experiences and meet real-world needs.

NASA SEWP VI ORDERING GUIDE

Kreative Technologies, LLC provides support throughout the SEWP ordering lifecycle, from requirements discussions and quotation through delivery, performance, and post-award support. Customers may contact the representatives below to request quotes for hardware, software, solutions, or services and to obtain sales, technical, or order-related assistance.

Applicable installation, warranty, maintenance, licensing, and technical support will be provided in accordance with the resulting order and applicable manufacturer or software publisher terms. For services, Kreative will provide the technical, management, and performance support specified in the order. Customers reporting an issue should provide the SEWP request or order number and a description of the problem so Kreative can coordinate a timely resolution with the appropriate parties.
